

Skills and Certifications

Certified Data Analyst in PowerBI, SQL, and Python (DataCamp), qualitative/quantitative analysis, VBA (Excel), and AI software. Climate, net zero, and resiliency policy, GHG accounting methodology, chemistry, report writing, and project management. Business and market research, SEO, survey design and facilitation, event planning, and social media strategy and management.

Experience

Small Business Association of Vancouver | Program Coordinator **11/2025 – Present**

- Developed brand guidelines for public communications, designed a competitor matrix to position program in a unique niche, and identified high-value grant opportunities. Informed program strategy by creating a community survey.

Research and Education Promotion Association | SIP2025 Conference Moderator **11/2025**

- Moderated the hybrid, sustainability conference by introducing speakers, facilitating Q&A and discussions for knowledge exchange, and ensuring the program schedule was on time. Distributed materials and set-up the venue.

Vancouver Game Garden and Vancouver Game Connect (VGX) | Event Volunteer **09/2025, 11/2025**

- Facilitated exhibitor check-in, greeted attendees, and provided information about the games, exhibitors, and talks.
- Coordinated with 20+ volunteers to track over 4500 total attendees, ensuring the venue remained at a safe capacity.

CAS, Ministry of Environment and Climate Change Strategy | Research Analyst Co-op **09/2023 – 12/2023**

- Led a comprehensive analysis of a \$56M emissions reductions program identifying regional disparities and cost-benefit trade-offs to inform decarbonization strategies, increase transparency, and standardize delivery across ministries.
- Drafted a compelling, cross-governmental application to secure \$60M in additional, matching climate funding.
- Headed a six-member committee which designed and launched an innovative executive mentoring program.

Environment and Climate Change Canada | Fresh Water Quality Analyst Co-op **05/2023 – 08/2023**

- Achieved a 100% on-time sample analysis for several, highly precise analytical tests meeting 3-day turnarounds.
- Completed the summer freshwater quality testing surge several weeks faster than previous years.

FTXT (Canada) Energy Technology Co., Ltd. | MEA Research and Development Co-op **01/2022 – 08/2022**

- Independently performed 100s of iterative fuel cell R&D trials in the lab. Multitasked across engineering, procurement, HR, and IT, automating the inventory system and timesheets with VBA scripts, reducing errors and improving efficiency.

AI4ALL | Chapter Lead (2021) / Alumni Program Head Chapter Lead (2022 – 2023) **2021 – 2023**

- Trained and coordinated 30 chapter leads to host 60+ events, engaging 450+ participants in AI education in one year.
- Developed the entire Alumni community program schedule, tracked activities, and analyzed program impact.
- *CL*: Hosted 8 online AI events and workshops, secured industry speakers, and sent biweekly newsletters.

Walmart Canada | Deli and Bakery Associate **10/2017 – 07/2019**

- Provided exceptional customer service, handling 300 inventory units per shift in a fast-paced retail environment.

Education

Chemistry Bachelor of Science (BSc) with Distinction | University of British Columbia **2024**

- Renewing Centennial Scholars Entrance Award (2019–24)
- Departmental RLE Award-Winning Research thesis: Student Perceptions of Writing in Chemistry. Extensive literature research, survey design and distribution, and comprehensive statistical and qualitative analysis of survey results.
- Extracurriculars: Rotaract Marketing Director (2019 – 2023), Turing Club VP Marketing (2021 – 2022), Blood4Life Newsletter Coordinator (2021 – 2022), UBC Development & Alumni Engagement Ambassador (2020 – 2023)
 - Facilitated events, managed and grew club social media accounts, sent newsletters to hundreds of subscribers.
